Progress sheet group-wise

Group And Title	GC5: IoT based Health Monitoring System			
	Work progress sheet	Details of work	Details of work	Details of work
Dates/weeks	**Work carried**	**M1: Vishal**	**M2: Shivam**	**M3: Shreyas**
5/8/2020	First Lab, Introduction about MP1	Did research on various societal issues.	Did research on various societal issues.	Did research on various societal issues.
12/08/2020	Tentative ideas by each student.	National Education System (NEP 2020) for student to learn as well as focus on their future scope prospective	Iot Based health monitoring system.	App for signing petition for cancelling acts causing harm to the environment. Also, for opposing the controversial Environmental Policy of the current government
19/08/2020	Group/Team formation	GC5: Vishal Salvi, Shivam Pawar, Shreyas Patel	GC5: Vishal Salvi, Shivam Pawar, Shreyas Patel	GC5: Vishal Salvi, Shivam Pawar, Shreyas Patel
26/08/2020	Team Discussion and Final Idea, Abstract	IoT based Health Monitoring System: The main objective of this system is obtaining the real-time medical information about a patient via IOT.The system would be smart to intimate the patient's family members and their doctor about the patient's current health status and full medical information in case any medical emergency arises.	IoT based Health Monitoring System: The main objective of this system is obtaining the real-time medical information about a patient via IOT.The system would be smart to intimate the patient's family members and their doctor about the patient's current health status and full medical information in case any medical emergency arises.	IoT based Health Monitoring System: The main objective of this system is obtaining the real-time medical information about a patient via IOT.The system would be smart to intimate the patient's family members and their doctor about the patient's current health status and full medical information in case any medical emergency arises.
02/09/2020	Collection of relevant info	Search research papers as well as journals.	Gathered information related to the project from various websites and research	Started gathering information by reading articles and finding papers.
09/09/2020	Collection of relevant info and work progress Draft and Presentation I	Read research papers understand their method and collect information for presentation I	Searched the already developed projects related to this topic and found the gap in	Created a presentation containing collected information from various articles

			them and read research paper related to the project and collected points for presentation.	
16/09/2020	Presentation I /Evaluation I contd..	Make Power point presentation and prepared for it.	Prepared for the presentation	Prepared for the presentation
23/09/2020	Finding Feasible solutions	We discuss in our group and come up with the solution for social issue.	We had a discussion for finding the feasible solution.	Looked at existing solutions for bed tracking and collected information for making an effective solution for our problem statement
30/09/2020	Finding Feasible solutions	We discuss in our group and come up with the solution for social issue.	General discussion on project topic.	discussion for finding the feasible solution
07/10/2020	Drafting and work progress			
21/10/2020	Drafting and Presentation II			
	Presentation II/Evaluation II contd...			
	Recap			
	Submission			
27/10/2020				

Member1: Vishal
05/8/2020/W1: Identifying the social issues by observing surrounding
Actively started searching various problems in the surrounding environment.

12/8/2020/W2: Tentative ideas by each student.
Came up with an idea National Education System (NEP 2020) for student to learn as well as focus on their future scope prospective.

19/8/2020/W3: Group/Team formation (Id, Names)
GC5:
Vishal Salvi,
Shivam Pawar,
Shreyas Patel

26/8/2020/W4: Team Discussion and Final Idea, Abstract
Decided to work on IoT based Health Monitoring System
Helped in creating the abstract
Started working on information collections.

02/8/2020/W5: Collection of relevant info

http://www.jcreview.com/fulltext/197-1585663661.pdf
https://www.ripublication.com/ijaer18/ijaerv13n15_40.pdf

09/8/2020/W6: Collection of relevant info and work progress Draft and Presentation I
I collected relevant info and make power point presentation

16/8/2020/W7: Presentation I /Evaluation I contd.
23/8/2020/W8: Finding Feasible solutions
30/8/2020/W9: Finding Feasible solutions
07/8/2020/W10: Drafting and work progress
14/8/2020/W11: Drafting and Presentation II

Member2: Shivam
05/8/2020/W1: Identifying the social issues by observing surrounding
12/8/2020/W2: Tentative ideas by each student.
19/8/2020/W3: Group/Team formation (Id, Names)
26/8/2020/W4: Team Discussion and Final Idea, Abstract
02/8/2020/W5: Collection of relevant info
09/8/2020/W6: Collection of relevant info and work progress Draft and Presentation I
16/8/2020/W7: Presentation I /Evaluation I contd.
23/8/2020/W8: Finding Feasible solutions
30/8/2020/W9: Finding Feasible solutions
07/8/2020/W10: Drafting and work progress
14/8/2020/W11: Drafting and Presentation II

Member3: Shreyas
05/8/2020/W1: Identifying the social issues by observing surrounding
12/8/2020/W2: Tentative ideas by each student.
19/8/2020/W3: Group/Team formation (Id, Names)
26/8/2020/W4: Team Discussion and Final Idea, Abstract
02/8/2020/W5: Collection of relevant info
09/8/2020/W6: Collection of relevant info and work progress Draft and Presentation I
16/8/2020/W7: Presentation I /Evaluation I contd.
23/8/2020/W8: Finding Feasible solutions
30/8/2020/W9: Finding Feasible solutions
07/8/2020/W10: Drafting and work progress
14/8/2020/W11: Drafting and Presentation II
